LUXURY RESORT

Elounda Spa Villas
LUXURY RESORT

At a glance

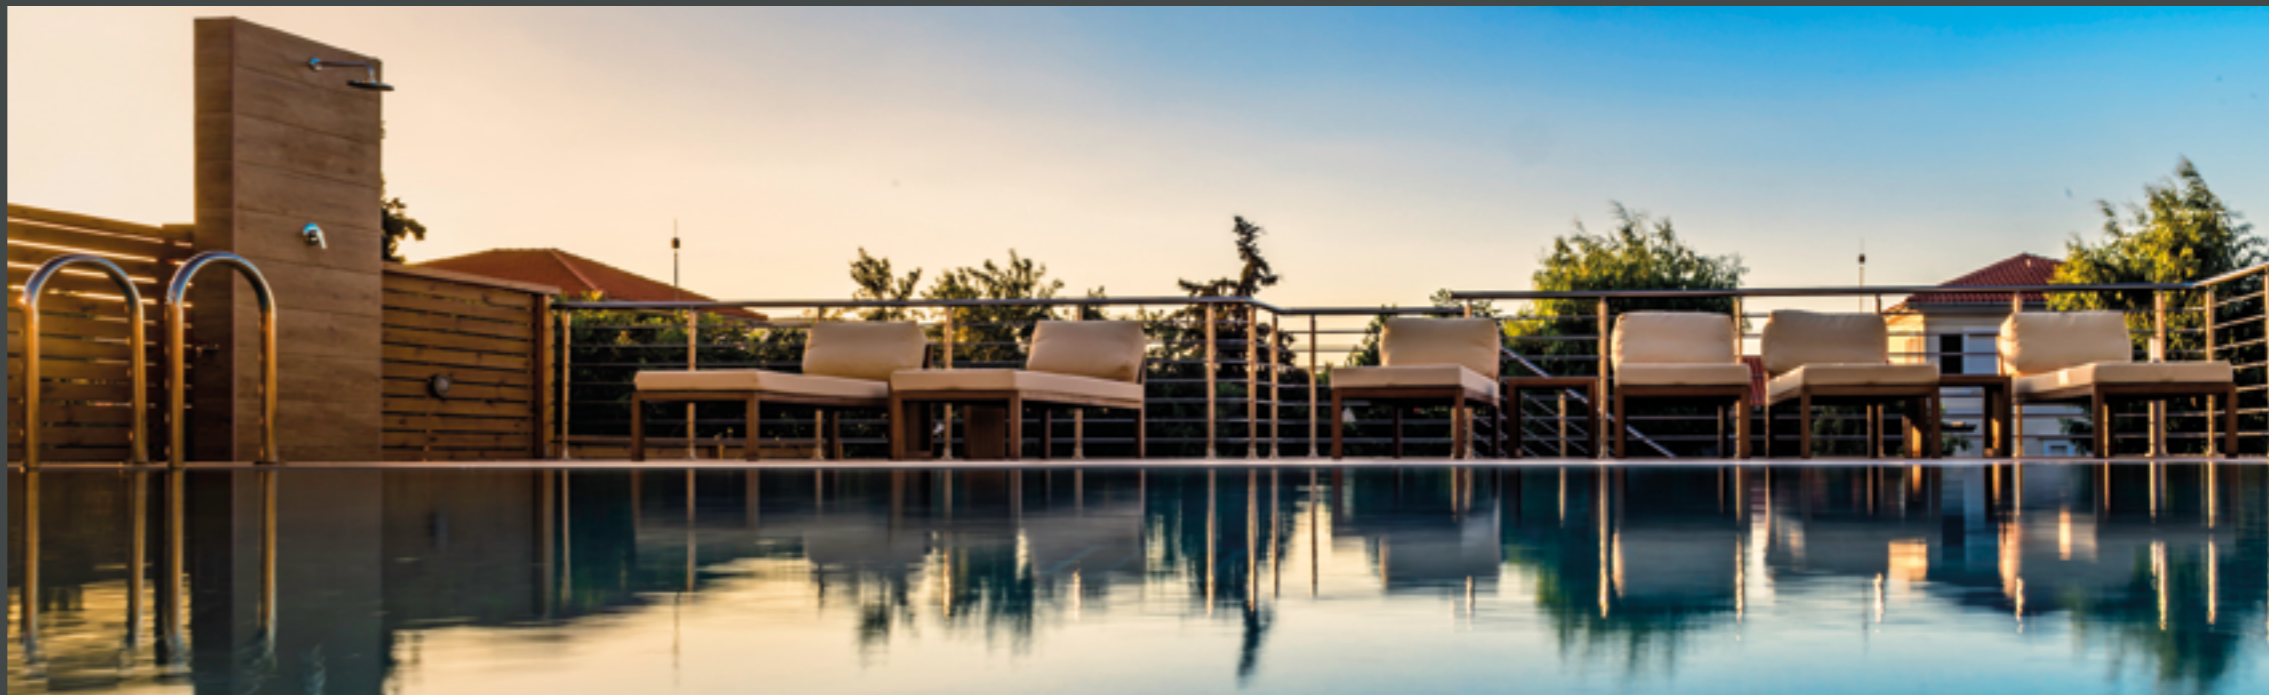

Elounda Spa Villa, the unique Spa & Fitness villa of the region, is a newly built luxurious, eco-friendly residence on a private land of 1,500m². Located in the northeastern coast of Crete, close to the quaint and peaceful village of Plaka, the villa is within a 15-minute walk from Elounda and only 12 km from the beautiful town of Aghios Nikolaos, with the lively nightlife (clubs and bars).

Welcome

Modern and traditional architecture are combined to feature the minimalist, yet relaxing, interior of the villa. Glass surfaces, wooden pergolas, teak wood loungers and the local stone hand crafted gate and fences complete the stylish finish of the exterior.

Swim and sunbathe in the large (heated) swimming pool (58m²) and unwind under the beaming Cretan sun. Create your own dishes at the outdoor kitchen and gas BBQ grill and enjoy your food at the spacious and shaded outdoor sitting and dining area; a dreamlike setting for indulging in relaxation.

Relaxation

This exceptional eco-friendly villa is ideal for **family vacations** as well as **private events** offering the combination of an independent holiday accommodation coupled with the advantage of hotel-standard service for an **unforgettably relaxing holiday experience**.

Luxury Design

This 170 m² Villa accommodates up to 6 persons and extends on three levels; on the main entrance level, the modern living and dining area is complemented by an Italian design kitchen and a lounge room, easily separated by a screen for more privacy and used as an extra bedroom, featuring a comfortable queen size sofa bed and a bathroom.

Spa & Fitness

On the lower level, the fitness room, the water spa therapies area, the heated indoor custom built pool and the Micro-Silk® Oxygen hydro/air/color therapy Jacuzzi, reenergize body, mind and soul for a fine wellness experience devoted to pampering and relaxation.

On the upper level, the two bedrooms with en-suite bathrooms have access to private verandas and offer charming side view of the Venetian fortress of Spinalonga and the Mirabello Gulf sea waters. The master bedroom has the privilege to its own hydro/air massage Jacuzzi.

Comfort

Along the 1,500m² of Elounda Spa Villa's botanical garden we have created a verdant landscape supporting over a hundred of indigenous plants, herbs and trees found in Crete, together with other tropical and sub tropical varieties from around the world! A small path leads to the Villa's private botanical garden with a wide range of local plants, bio garden products and aromatic plants labeled with their botanical names, ready to be harvested and used in preparing highly nutritious gastronomic plates. Near the vineyard, the olive, pomegranate and carob trees garden, you can profoundly relax, while enjoying the magnificent landscape.

Cretan Nature
