LUXURY RESORT

## At a glance

Elounda Spa Villa is a newly built **luxurious**, eco-friendly residence on a private land of 1,500 square meters located in the north-eastern coast of Crete, close to the quaint and peaceful village of Plaka, a 15 minutes' walk from Elounda, home of the best luxury and exclusive resorts in the Mediterranean and only 12 km from the beautiful city of Aghios Nikolaos, with the lively night life (clubs and bars).

Modern and traditional architecture are combined to feature the minimalist yet relaxing interior of the villa. Glass surfaces, wooden pergolas and the hand crafted local stone gate and fences complete the stylish finish of the exterior.

The outdoor spaces are defined by a large heated swimming pool (58sqm), an outdoor kitchen and gas BBQ grill, along with spacious sitting and shaded dining areas decorated with modern style wooden furniture that create a dreamlike setting for private entertainment and a fabulous party scene.

A small path leads to the villa's private botanical garden with a wide range of local plants, bio garden products and aromatic plants labelled with their botanical names, ready to be harvested and used in preparing highly nutritious gastronomic plates. In the vineyard, the olive, pomegranate and carob trees garden, you can relax profoundly while enjoying the magnificent landscape. Find useful information with the aid of explanatory signposts next to the plants through the unique Elounda Spa Garden™ application for smart phones and tablets.

This 170sqm Villa accommodates up to 6 persons and extends on three levels; on the main entrance level, there is a modern living and dining room complemented by an Italian designed kitchen and a sofa bed area with an ensuite bathroom.

On the upper level, the two bedrooms with ensuite bathrooms have access to verandas and offer charming side view of the Venetian fortress of Spinalonga and the Mirabello sea waters. The master bedroom has the privilege to its own hydro/aero massage Jacuzzi.

On the lower level, the fitness room with water spa therapies area, the heated indoor Jacuzzi and hydrotherapy (Microsilks® system)/aero/color therapy Jacuzzi, the shower and many more exceptional facilities re-energize body, mind and soul for a fine **wellness** experience devoted to pampering and relaxation.

This exceptional eco-friendly villa is ideal for **family vacations** as well as **private events** offering the combination of an independent holiday accommodation coupled with the advantage of hotel-standard service for an **unforgettably relaxing holiday experience**.
